The N. Y. Spectator, a very conservative and high-toned public journal, thus discourses on the President's Message — We publish a most remarkable message, addressed to the Senate by the Chief Magistrate of this republic. We have not a word of objection to urge against what the President says of the Topeka constitution and the so-called Topeka Legislature and government. We have repeatedly said that that body was entirely without authority or constitutionality, and essentially and practically revolutionary. Our opinion on that point is only strengthened by reflection. The Topeka constitution and all action under it must be unequivocally condemned by every well wisher to our institutions; and the Pree State men of Kansas Territory, who have persisted in adherence to it, have damaged their case in the estimation of every thinking man outside of their own immediate partisan circle. The whole Topeka business is without the shadow of a semblance of legality.

But when we have said this we have gone about as far as we possibly can with President Sential Committee the contrary, the whole temper of which is objectionable and reminds us of the remarks of our Wash-more than the remarks of our Wash-more than the papers accompanying the same, be the president said committee to inquire one about as far as we possibly can with President Remarks of our Wash-more than the papers accompanying the same, be the president said committee to inquire the president said committee to inquire the president said the papers accompanying the same, be the president said the papers accompanying the same, be the president said committee to inquire the president said the papers accompanying the same, be the president said committee to inquire the president said the papers accompanying the same, be the president said the papers accompanying the same, be the president said the papers accompanying the same, be the president said the papers accompanying the same, be the president said the papers accompanying the same, be the president said the pape

Night Semion—Scene in the House—Nature of the Struggle.

The policy of the Administration Party was to have the Lecompton Constitution, and the President's message recommendand the President's message recommending its adoption, referred to the Committee on Territories. The assumption is, that there should be no inquiry beyond the Constitution itself—is it republican in form? As to the character of the Convention that formed it, the manner in which it was organized, its proceedings, the mode in which the Constitution was submitted, or the expression of the popular will concerning it—these were subjects with which Congress had nothing to do: the President and his supporters wanted no investigation! On the other hand, the Republicans and the supporters of Mr. Douglas insisted upon a full pression whether the constitution was submitted, or state and his supporters of Mr. Douglas insisted upon a full pression whether the constitution was submitted to the constitution was sailing in front, they assassinate behind the back. A LADIES' HOOP SIDE SADDLE belonging to Mrs. Glive Shivil, was stolen from the horse while he was standing near the Masonic Hall, on Monday night last, between the hours of eight and nine o'clock. The saddle was bought of J. G. Sands, a few months since, and was a very valuable article. The thief will really oblige Mr. and Mrs. Smith, who lives four miles south of Lawrence, by leaving the Saddle where the owner can come in possession of it again.—Dated Lawrence, January 6th, 1858.

RROM the subscriber, two miles West of Lawrence, about two months ago, two yoke of
Oxen. One yoke was about six years old; the
near Ox a black brindle with the letter S on
one hip; his mate is a light red, with a roan
back. The other yoke is four years old. The
near one, a dark brindle with a mottle face, and
the off one a white ox, with a red neck and a
large white stripe in his face. Other marks not
recollected.

Any person giving information where they may
be found will be liberrily rewarded.

This town, situated at the junction of the I Osago River with Ottawa Creek, in Franklin County Kansas Territory—bids fair to eclipse many of her sister towns in population and enterprise.

There is now in operation a good Steam Saw Mill with power sufficient to run a pair of Burrs which will be attached soon. There are also two good Shingle Machines capable of cutting from six to eight thousand shingles each, per-day.—Timber is plenty, and as good as can be found in any portion of the Territory. Land is of the best quality, both for farming and stock raising.

There is a Post Office, two Dry Goods, and two Grocory and Provision Stores here stready.—There is a fine opening for mechanics of nearly all kinds; a good Blacksmith is much needed; also a Shoomaker, Carpenters, and other mechanics.—The Proprietors will donate a lot to any one who will ereot a substantial building thereon.—Shares and Lots for sale at reasonable rates. The above place is located near the center of the County, and will undoubtedly be the County Seat at an early day. This place is twenty-five miles from Lawrence, and fifty from Kansas City.

Shall We Vote or Not Vote!

Shull We Vote or Not Vote!

THIS IS A QUESTION OF GREAT IMPORtance. My own opinion is that we ought not to vote; but this difference of opinion will by no means prevent me from selling all the goods I can to those who see ht to vote under the infersel apportionment act of the bogus authorities, hitherto repudiated by all our friends.

Supposing, however, that the voters will vastly ontumber the non-voters, I have made especial arrangements for their accommodation, not in the way of voting, but in the way of supplying them with GROCERIES and FBOVISIONS at the Leavenworth and Kansas prices.

The attention of the settlers on the Noceho, Orage, do., is particularly called to this arrangement.

On or about the 1st of October I shall take possession of my new store, which is of solid stone, with brick front, thus affording an excellent opportunity for refuge in time of war, and is three stories high and sixty feet long. My object is to sell at wholessle at precisely the same as the Leavenworth wholesale stores, with the addition of freight from Leavenworth here.

This will enable the distant settlers to obtain their supplies, without being being absent from heme more than half as long as if they went to Leavenworth.

Full particulars when the Store is opened.
